RE: Trespassers on the Golf Course

To Whom It May Concern,

We have noticed more people using our course as a beach access as well as a walking or jogging path for themselves and their dogs. This has been an ongoing problem and we would like to remind all residents and guest that the golf course is private property. The course has this rule in place for safety and liability reasons. We would appreciate you informing your residents and guest about our no trespassing policy and also in helping to keep people and dogs off the golf course. If this problem persists we may be forced to file trespassing charges to all violators.

Thank you for your assistance and understanding in this matter.

Sincerely,

Kona Country Club Management
